Further distribution of the list of persons familiar with "Bluebird" will be strictly limited for the present. Possible future distribution may be carried out when the security classifications have been rewritten.

~~_____~~ will prepare, for the approval of ~~_____~~ and ~~_____~~, a revision of the security descriptions. The personnel currently on the list will be reviewed for redesignation as to security classifications or removal from the Bluebird list.

The members of the group were reminded that any administrative matters relating to this project can be classified secret where possible. This should be done to simplify the handling of the material. ~~_____~~ stated that he would contact certain persons in the military establishment so that the most influential and effective liaison personnel would be obtained. The centralization of substantive information was discussed and agreed upon that until a formal staff support group is organized OSI will be the custodian of or have access to all substantive information.

The next meeting of the group will be during the week of June 11.
